

Name: _____

DRAW YOUR OWN COMIC: MAP MAKER

Today, maps of New Hampshire are created with the help of technology, like GPS and satellites. But how were maps made before this technology existed?

Draw a comic strip to show how you would create a map of New Hampshire without today's technology. What tools would you need? How long would the project take? Are you creating this map with your friends or by yourself?

Two large, empty rectangular boxes with thick black borders, intended for drawing a comic strip.

DRAW YOUR OWN COMIC: MAP MAKER
