

WHAT TYPES OF JOBS DID PEOPLE HAVE?

FARM WORK VS. FACTORY WORK IN NEW HAMPSHIRE		
	1840 (males only)	1900 (males and females)
PEOPLE WHO WORK ON FARMS	77,949	38,782
PEOPLE WHO WORK IN FACTORIES	17,826	75,945
ALL OCCUPATIONS	99,457	178,719

Notice & Wonder

1. In 1840, were more people working on farms or in factories in New Hampshire? What about in 1900?
2. Look at the total number of people who were working in 1840. Estimate how many of them were working in factories as a fraction of the whole number. Now do the same for the number of people working in factories in 1900.
3. Can you think of reasons why the total number of people working in New Hampshire would increase by so many between 1840 and 1900?
