

THE ART OF BENJAMIN CHAMPNEY

The most famous of all the White Mountain artists, Benjamin Champney painted more than 175 pictures of New Hampshire in the second half of the 19th century. He also helped other artists in their work to paint New Hampshire and became a teacher for those wanting to learn how to capture the dramatic landscapes of the Granite State. He lived in North Conway, where he had a studio that became a tourist destination in its own right.
