

HOW DO WE DO?

New Hampshire's first-in-the-nation primary has been very important for our state since 1952. How does New Hampshire do at predicting who will be the nominee for each party? Look at the pie charts below to see.

DID NEW HAMPSHIRE'S PRIMARY CORRECTLY PREDICT THE NOMINEE? 1952-2016

REPUBLICAN

DEMOCRATIC

1. How many primary elections have there been since 1952? How many different ways can you figure this out?
2. What fraction or percentage of the time has each party correctly predicted the nominee?
3. Why do you think there were no primaries a few times for each party?
