

NAME: _____

TOURIST ACTIVITIES

When tourists first visited New Hampshire, they only came during the summer months. But now people come to visit the Granite State all year round!

What activities or events do you think bring people to New Hampshire each year? What activities do you and your family do?

List or draw as many fun activities as you can in the space above each month.

A large circular graphic divided into 12 equal segments. The months of the year are written in the center of the circle, starting from the top and moving clockwise: JANUARY, FEBRUARY, MARCH, APRIL, MAY, JUNE, JULY, AUGUST, SEPTEMBER, OCTOBER, NOVEMBER, and DECEMBER. Each segment is empty, intended for students to list or draw tourist activities for that month.
