

NAME: _____

MY COMMUNITY RESPONSIBILITIES

In the United States, the government works directly for the American people so that everyone benefits from the government's protection and support. We also have responsibilities to one another that help make our communities safe places to live.

What does it mean to be responsible in your community? Think about the questions in each of the boxes and brainstorm what you think those responsibilities include.

Draw a picture of one of the responsibilities you listed.

What are my responsibilities in my neighborhood?

What are my responsibilities at school?

What are my responsibilities at home?

What would happen if I wasn't responsible?
