

BRAINSTORM: TOOLS FOR NH'S EARLY INDUSTRIES

Many English settlers initially came to New Hampshire to work in one of the area's three major industries, known as the three F's: fish, fur, and forests.

Brainstorm the tools you think were needed for fishing for cod, trapping beavers, and working in a forest. Then draw one of the tools you listed.

Tools for Fishing

A large, empty rounded rectangular box with a thick green border, intended for drawing a tool used for fishing.
