## ***DRAW YOUR OWN COMIC: TRAVELING IN A STAGECOACH***

As more roads were being created throughout New Hampshire, people began to travel to new locations. They used stagecoaches, along with other new modes of transportation, to get where they needed to go.

Imagine you are one of those travelers and you are going on a trip in a stagecoach to somewhere in New Hampshire you have never been to before. Draw a comic strip about what you experience along the way.

Who is traveling with you? Where are you going? How would you describe the journey so far? What do you see outside the stagecoach window? Is this a day trip, or are you planning to stay overnight somewhere?
