

ILLUSTRATE A FARM FOR SALE

After the Civil War, many New Hampshire farmers abandoned their farms and moved to cities to work in factories or to the Midwest to work on farms with better soil. With so many empty farms, the state of New Hampshire decided to sell the farms to wealthy tourists to turn into vacation homes.

Imagine you work for the state of New Hampshire and you have been asked to create an advertisement for a farm for sale. What would you include in the advertisement to make people interested in buying the farm? Where is the farm located? What kinds of farm buildings are there? Will there be farm animals included in the sale?
