

NAME: _____

BRAINSTORM! NH FARMS TODAY

Even though most people in New Hampshire today do not live on farms, farming is still very important in the Granite State. In fact, you might even interact with farms near you! Have you ever been to a farmer's market? Have you ever visited a "Pick Your Own" farm? What fruits have you picked yourself?

Think about all of the ways you and your family interact with farms and farm animals today. Draw more lines if you need.
