

NAME: _____

ILLUSTRATE A ONE-ROOM SCHOOLHOUSE

In the early 19th century, children attending school would learn in a one-room schoolhouse, where everyone learned together. Back then, there weren't separate classrooms for each grade or age group!

Imagine you are a student in that classroom and draw what you think that experience would have been like. What are you learning about? How are the other students behaving? How are you able to stay focused?
