

FARM TOWN TO MILL CITY

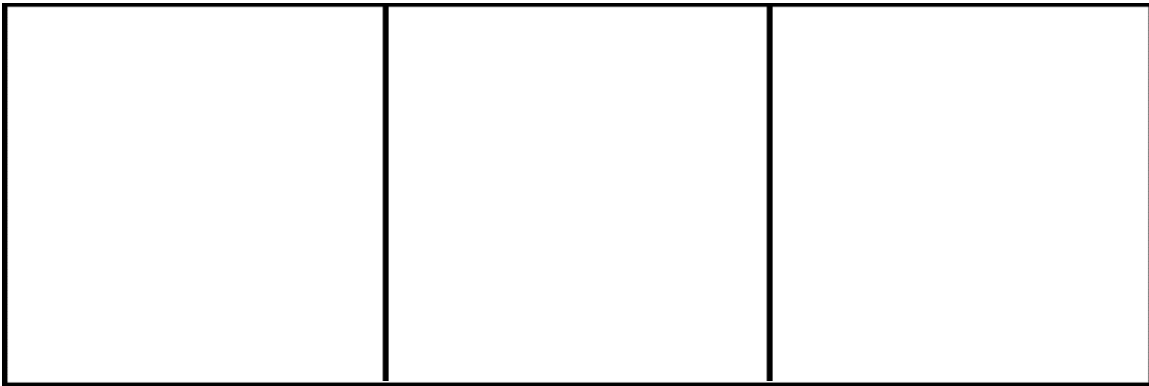

BUILD YOUR MILL CITY

You're putting a mill into this town! Draw your mill, cut it out, and place it on the map.
Why did you choose to put it there?

Draw three things that a mill **NEEDS** to run. Cut out and place the squares somewhere on the town. What did you choose to cover up? Why? What did you choose to put in? Why did you put them where you did?

Draw three things that will **CHANGE** in the town because of the mill. Cut out and place the squares somewhere on the town. What do you think might change? Why?
